

**ENVIRONMENTAL
REMEDIATION AND DEMOLITION
SOLUTIONS**

VIASANT is a full service environmental services organization self-performing decontamination, demolition and site remediation projects nationwide. Our suite of services is designed to deliver safe and cost effective solutions for our clients' complex environmental needs. With a long term approach to client relationships, VIASANT has safely executed over 700 projects.

PROFESSIONAL

VIASANT is comprised of dedicated individuals possessing superior technical expertise and strong project management experience and capabilities. Innovation, value engineering and the delivery of the lowest total cost solution all result from our carefully cultivated environment of diverse talents and teamwork. VIASANT aligns our service approach with each customer's project objectives, assigning project teams with focused technical competencies that are backed by a proven project management systems and tools. This approach has consistently delivered quantifiable results and repeat business with the world's most respected corporations.

RELIABLE

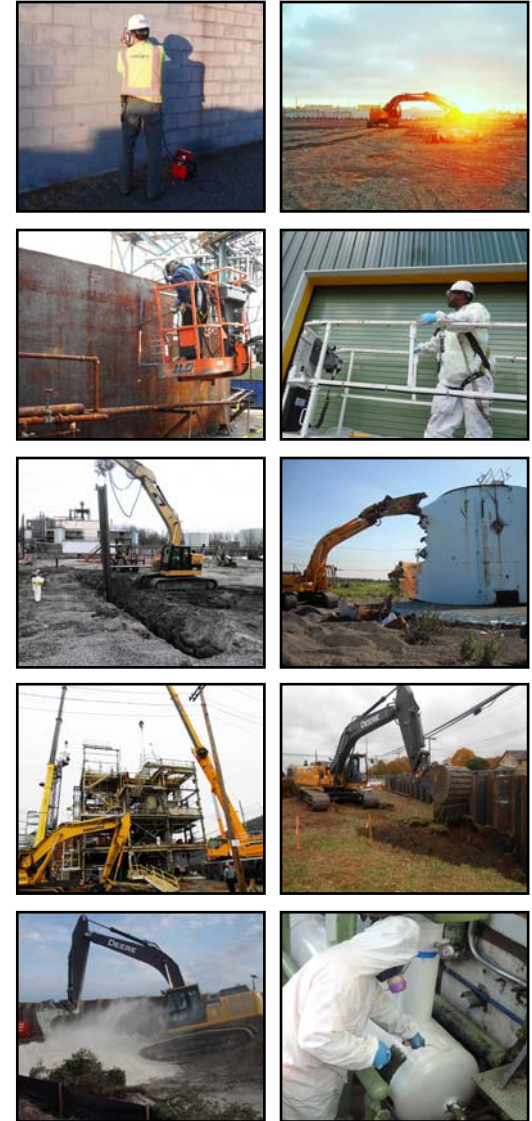

VIASANT is a financially strong, privately held firm built around our associate-owners providing our clients a direct level of interaction with decision makers that is unparalleled in our industry. Since our founding, VIASANT has never failed to complete a project or had a legal dispute with any client.

SAFE

On each and every project, safely completing our work is our first objective. VIASANT's health and safety program is anchored by a well-established behavioral based system that promotes identifying and eliminating risks before a loss or incident occurs. VIASANT invests heavily in the education of its associates, ensuring that each individual recognizes their responsibility and authority in preventing unsafe acts. Our safety program and metrics have been continually recognized by our customers and validated by market leaders in contractor safety compliance programs.

SERVICES

Environmental Remediation

VIASANT and our Associates have the expertise to self-perform soil and sediment remediation work within the challenging conditions presented in all environments.

- ▶ Excavation and Source Removal – Off site T&D Management
- ▶ Earth Support Retention Systems – Sheet Pile Installation
- ▶ Chemical Fixation Technologies
- ▶ Sediment/Wetlands Remediation and Restoration
- ▶ Repository and Containment Construction
- ▶ Design/Build Remedies
- ▶ MGP Site Remediation
- ▶ Residential Remediation
- ▶ Groundwater Treatment System Installation
- ▶ Landfill Capping, Containment, and Closure

Industrial Demolition & Dismantlement Services

VIASANT has the personnel and technical resources required to safely perform environmental dismantlement and demolition services within active or idle plant environments. This work requires a much higher standard of care, commitment, and dedication to environmental health and safety (EH&S) than most common wrecking firms can provide.

- ▶ Structural/Total Facility Demolition
- ▶ Selective Dismantling and Controlled Demolition
- ▶ Active Facilities – Chemical, Refinery, Manufacturing
- ▶ Management of all ACM abatement
- ▶ Waste Segregation and Management
- ▶ Investment & Asset Recovery
- ▶ Power Generating Facilities
- ▶ Process Piping and Vessel Decontamination and Removal

Geotechnical Services

VIASANT and our Associates have significant experience in performing cost-effective onsite geotechnical remediation for impacted sites. This expertise includes containment and or treatment of soil or groundwater impacted by organic or inorganic contaminants.

- ▶ Vertical Barrier Walls – Slurry walls - Soil Bentonite, Cement-Soil Bentonite
- ▶ Permeable Reactive Barriers – Zero-Valent (Iron), Activated Carbon, Funnel & Gate Systems
- ▶ Jet Grouting – Barrier Walls, Structural Support, Stabilization/Solidification
- ▶ In-situ/Ex-situ Soil Stabilization
Bucket Mixing, Rotary Head Mixing, Deep Soil Mixing (DSM), Pug Mill
- ▶ Biopolymer Supported Trenching
- ▶ Bench-Scale Treatability Studies
- ▶ Design or Design/Build Services

SERVICES

Decontamination and Decommissioning

VIASANT provides our clients the ability to hire a single entity to manage any asset termination process for complete facilities or antiquated manufacturing processes within an active facility. This service includes self-performing the complete planning, task sequencing, first breaks for process lines, purge and decontamination, and asset recovery.

- ▶ Chemical Cleaning/Media Blasting
- ▶ PCB Decontamination & Surface Restoration
- ▶ Process Line, Tank and Vessel Decontamination/Decommissioning
- ▶ Universal Waste Removal
- ▶ Equipment Decontamination
- ▶ Facility Lease Termination/Restoration
- ▶ Lead Abatement
- ▶ Hazardous Materials Collection & Abatement

Industries Served

VIASANT delivers its services for a diverse range of industrial clientele nationwide. Whether soil remediation in challenging conditions or turn-key decommissioning and dismantling for plant shut downs, our team applies significant institutional knowledge unique to each industry we serve.
